New York State Proposal Number One

The proposed amendment to sections 4 and 5 and addition of new section 5-b to

Article 3 of the State Constitution revises the redistricting procedure for state legislative and congressional districts. The proposed amendment establishes a redistricting commission every 10 years beginning in 2020, with two members appointed by each of the four legislative leaders and two members selected by the eight legislative appointees; prohibits legislators and other elected officials from serving as commissioners; establishes principles to be used in creating districts; requires the commission to hold public hearings on proposed redistricting plans; subjects the commission's redistricting plan to legislative enactment; provides that the legislature may only amend the redistricting plan according to the established principles if the commission's plan is rejected twice by the legislature; provides for expedited court review of a challenged redistricting plan; and provides for funding and bipartisan staff to work for the commission. Shall the proposed amendment be approved?

New York State Proposal Number Two

The proposed amendment to section 14 of Article 3 of the State Constitution would allow electronic distribution of a state legislative bill to satisfy the constitutional requirement that a bill be printed and on the desks of state legislators at least three days before the Legislature votes on it. It would establish the following requirements for electronic distribution: first, legislators must be able to review the electronically sent bill at their desks; second, legislators must be able to print the bill if they choose; and third, the bill cannot be changed electronically without leaving a record of the changes. Shall the proposed amendment be approved?
