**CHAUTAUQUA COUNTY
RESOLUTION NO. _____**

TITLE: Environmental Assessment of Projects for 2023 2% Occupancy Tax Projects

BY: Planning and Economic Development and Audit and Control Committees:

AT THE REQUEST OF: County Executive Paul M. Wendel, Jr.:

WHEREAS, the Chautauqua County Legislature requested by Resolution No. 159-22 that the Chautauqua County Department of Planning and Development (“CCDPD”) conduct a New York State Environmental Quality Review (“SEQRA”) for the projects approved by the Waterways Panel for funding in 2023 as set forth below and provide a report and recommendations to the County Legislature; and

WHEREAS, CCDPD and the various involved agencies have reviewed the projects consistent with SEQRA and applicable state regulations; and

WHEREAS, the CCDPD recommends that the projects that are ranked as numbers 1 through 8 on the Waterways Panel list provided below be classified as Unlisted Actions under 6 N.Y.C.R.R. Part 617.2 of the Environmental Conservation Law; and

WHEREAS, the County has caused the attached Short Environmental Assessment Forms (SEAF) to be prepared for all projects recommended to be classified as Unlisted Actions; and

WHEREAS, the County has reviewed and analyzed the SEAF for each project, and considered any relevant areas of environmental concern and probable environmental impacts of the Actions to determine if the Actions may have any significant adverse environmental effects; now, therefore be it

RESOLVED, That the County hereby finds and determines that Actions listed and identified below will not have a significant adverse environmental impact in accordance with New York State Environmental Quality Review Act, Article 8 of the New York Environmental Conservation Law, and pursuant to the implementing regulations found at 6 N.Y.C.R.R. Part 617, and accordingly, is issuing a negative declaration.

Part 1 - Project Information

Instructions for Completing

Part 1 - Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

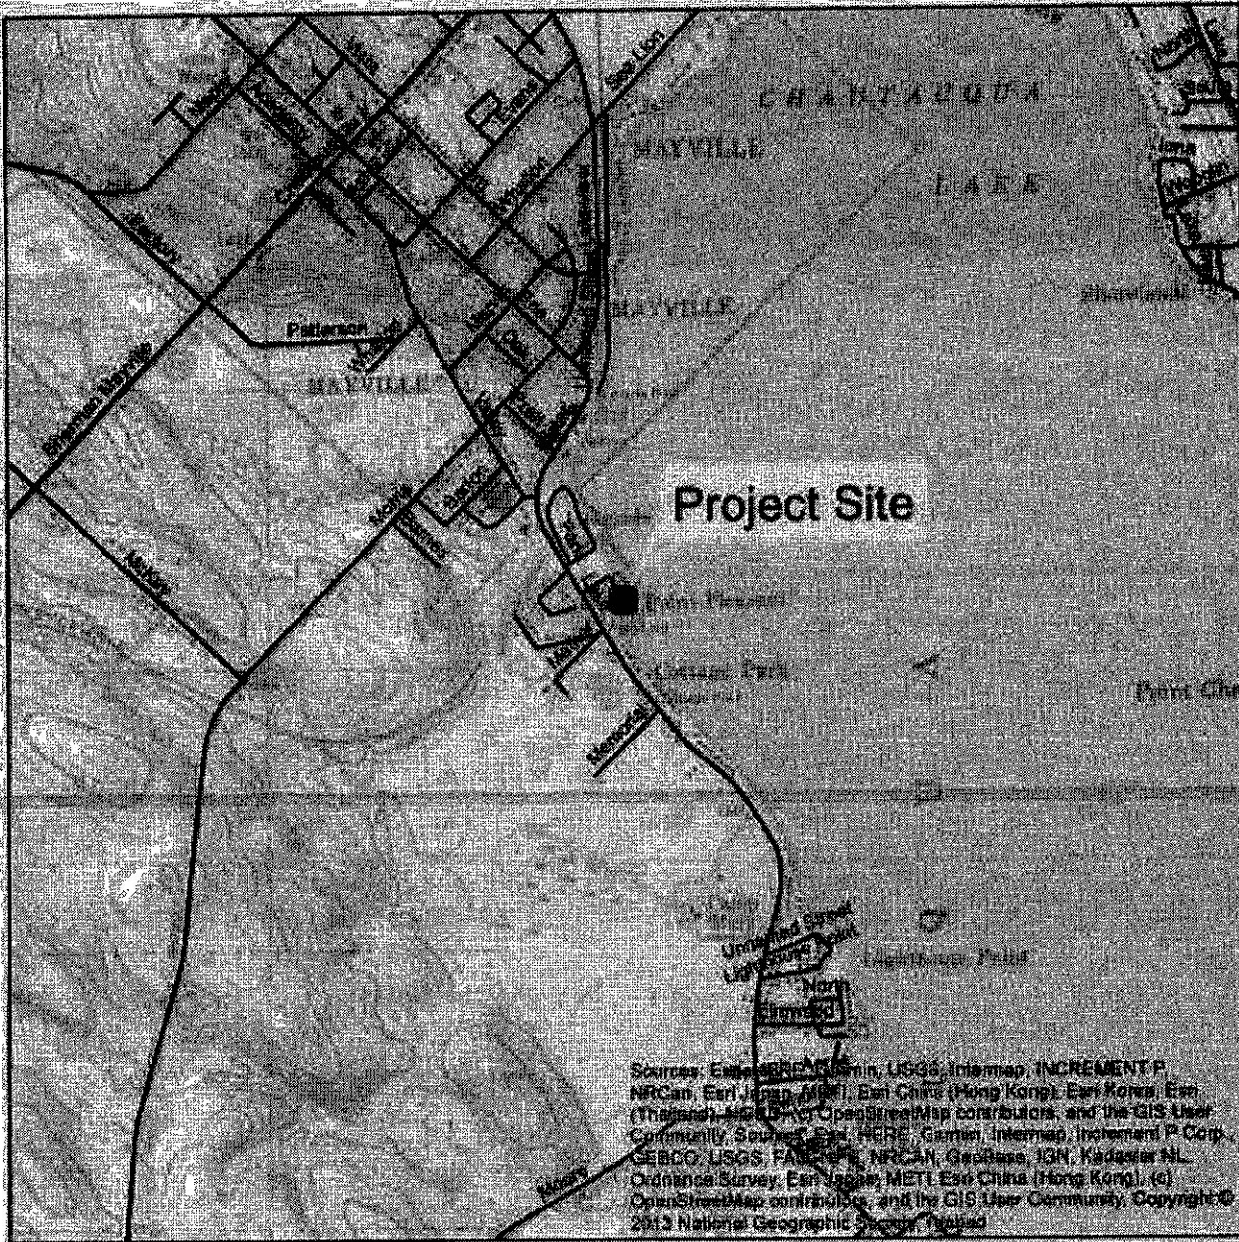

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 - Project and Sponsor Information							
104 West Lake Road, LLC c/o Chautauqua County Soil & Water Conservation District							
Name of Action or Project: Mud Creek Erosion and Buffer Project							
Project Location (describe, and attach a location map): East of NYS Rout 394 along Mud Creek, Town of Chautauqua							
Brief Description of Proposed Action: The project involves development of 499 linear feet of "living shoreline" riparian buffer. An assortment of native plants will act as stabilization with their root system and filter of excess nutrients and other unwanted run-off. This will protect the water quality by reducing nutrients from entering Mud Creek and Chautauqua Lake as well as reducing sedimentation. Approximately 35 linear feet of riprap will also be installed to stabilize erosion prone areas of the streambank.							
Name of Applicant or Sponsor: Deborah & Lou Clementi		Telephone: 239 598 2296 cell E-Mail: debiclementi@aol.com					
Address: 104 West Lake Road							
City/PO: Mayville		State: New York	Zip Code: 14757				
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation? If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.			<table border="1" style="width: 100%; text-align: center;"> <tr> <th style="width: 50%;">NO</th> <th style="width: 50%;">YES</th> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td><input type="checkbox"/></td> </tr> </table>	NO	YES	<input checked="" type="checkbox"/>	<input type="checkbox"/>
NO	YES						
<input checked="" type="checkbox"/>	<input type="checkbox"/>						
2. Does the proposed action require a permit, approval or funding from any other governmental Agency? If Yes, list agency(s) name and permit or approval: An Article 15 Joint permit will be required for work on the Chautauqua Lake and Mud Creek shoreline. The project is partly funded by the Chautauqua County Occupancy Tax Grant Program for Lakes & Waterways.			<table border="1" style="width: 100%; text-align: center;"> <tr> <th style="width: 50%;">NO</th> <th style="width: 50%;">YES</th> </tr> <tr> <td><input type="checkbox"/></td> <td><input checked="" type="checkbox"/></td> </tr> </table>	NO	YES	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept “Have my responses been reasonable considering the scale and context of the proposed action?”

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?		
2. Will the proposed action result in a change in the use or intensity of use of land?		
3. Will the proposed action impair the character or quality of the existing community?		
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?		
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?		
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?		
7. Will the proposed action impact existing:		
a. public / private water supplies?		
b. public / private wastewater treatment utilities?		
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?		
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?		
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?		
11. Will the proposed action create a hazard to environmental resources or human health?

Part 3 Determination of Significance

For every question in Part 2 that was answered “moderate to large impact may occur”, or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

Also consider the potential for short-term, long-term and cumulative impacts.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept “Have my responses been reasonable considering the scale and context of the proposed action?”

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?		
2. Will the proposed action result in a change in the use or intensity of use of land?		
3. Will the proposed action impair the character or quality of the existing community?		
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?		
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?		
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?		
7. Will the proposed action impact existing:		
a. public / private water supplies?		
b. public / private wastewater treatment utilities?		
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?		
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?		
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?		
11. Will the proposed action create a hazard to environmental resources or human health?

Part 3 Determination of Significance

For every question in Part 2 that was answered “moderate to large impact may occur”, or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
