(716) 753-4250

1995 ANNUAL REPORT

Republican Terry Niebel and Democrat Joseph Porpiglia are the Commissioners for the Chautauqua County Board of Elections. The support staff includes eight full-time employees who provide equal representation for each of the two major political parties.

The Chautauqua County Board of Elections conducts all elections within the county for federal, state, county, city, town, and Village of Celoron offices. Our number one priority is the preservation of one's right to vote. Responsibilities of the Board also include: preparing the ballot, canvassing, and certifying the vote to declare elected officials for all established public and party positions. The profiles of government units in addition to federal, state, and county at-large obligations include:

31st Congressional District (part), 57th State Senate District (part),
149th Assembly District (part), 150th Assembly District,
Twenty-five County Legislative Districts, two cities, twenty-seven towns,
fifteen villages, and one hundred thirty-three election districts.

According to the 1990 census, Chautauqua County's population is 141,895, of which 105,963 are eighteen years of age or older. In 1995, the Chautauqua County Board of Elections maintained 81,430 voter registration records (77% of those eligible to register).

With full implementation of the 1993 National Voter Registration Act (NVRA) scheduled for January 1, 1996, preparatory action during 1995 was essential. While maintaining standard obligations for elections throughout the year, we dedicated a substantial amount of effort to the creation of conforming programs. We expect this transitional period of change to continue throughout 1996.

Managing the shift during this time has been and will continue to be a challenge. We would like to commend the Board of Elections' staff on their continued efforts toward administering these changes.

The Chautauqua County Board of Elections' 1995 achievements:

DIGITIZING

In 1993, we completed a pilot project. We accomplished full implementation of a signature imaging system during 1995. We conducted the primary and general elections using the advanced technology of digitized poll books at each polling site. This change prompted positive acceptance from both election day workers and the voters.

NURSING HOME OUTREACH PROGRAM

Nineteen ninety-five was the Boards' first complete year for this program. The Board of Elections, represented by a bipartisan team, visited thirteen facilities and accommodated two hundred seventy-five eligible voters.

A high volume of change among facility staff required more organizational time than originally planned.

CITY OF JAMESTOWN REDISTRICTING

The City of Jamestown passed a redistricting plan that required a complete overall of the ward and election district system. The implementation of redistricting required a reduction from seven to six wards, and thirty-five to thirty election districts. This project entailed several months of developing a plan to ensure proper reapportionment. The timing of this project placed an additional burden on staff activity because of the simultaneous signature imaging conversion.

ELECTION PERSONNEL POSITION

This newly created part-time position allows for exclusive dedication of Board of Elections' staff members to carry out scheduling and training of voting machine custodians and election inspectors. The technician organized and recorded voting machine custodian responsibilities in great detail. The number of election inspector training classes also increased.

ELIMINATION OF CENTRAL FILE

Increased computer capabilities enabled the elimination of the Boards' central file. This labor intense system of double filing hard copy registration data had outlived its usefulness. Pursuant to N. Y. State Election Law §5-504, the New York State Board of Elections granted approval for this change.
